Insert for Vol. 6, No. 4, December 1979 issue of UBR

CONTENTS OF VOLUME 6

No. 1, March 1979

Species differences in decompression. T. E. Berghage, T. D. David, and C. V. Dyson 1
Combined effects of ethanol and hyperbaric air on body sway and heart rate in man. A. W. Jones, R. D. Jennings, J. Adolfson, and C. M. Hesser 15
Influence of nitrous oxide, nitrogen, neon, and helium on the beating frequency of the mouse sinus node at high pressure. H. Ch. Örnhagen 27
Pressure, anesthetics, and membrane structure: a spin-probe study. E. D. Finch and L. A. Kiesow 41
Nerve membrane lipid fluidity: opposing effects of high pressure and ethanol. C. J. Mastrangelo, J. J. Kendig, J. R. Trudell, and E. N. Cohen 47
Observations on the knee-jerk reflex in oxygen-helium at 31 and 43 bars. D. J. Harris 55
Effect of interaction of volatile anesthetics and high hydrostatic pressure on central neurons. J. L. Parmentier, B. B. Shrivastav, P. B. Bennett, and K. M. Wilson 75
Bubble production in agarose gels subjected to different decompression schedules. J. S. D'Arrigo and Y. Mano 93
Correlation between decompression sickness and circulating bubbles in 232 divers. B. Gardette 99

Supplement to No. 1, March 1979

PROGRAM AND ABSTRACTS, Undersea Medical Society Annual Scientific Meeting May 30–June 2, 1979.

No. 2, June 1979

Prolonged bubble production by transient isobaric counter-equilibration of helium against nitrogen. B. G. D'Aoust, K. H. Smith, H. T. Swanson, R. White, L. Stayton, and J. Moore 109
Effects of aspirin and dipyridamole on platelet function, hematology, and blood chemistry of saturation divers. R. B. Philp, P. B. Bennett, J. C. Andersen, G. N. Fields, B. A. McIntyre, I. Francey, and W. Briner 127
Solubility of oxygen in a seawater medium in equilibrium with a high-pressure oxy-helium atmosphere. C. D. Taylor 147
Adrenal function and the incidence of bends after decompression in mice: effect of adrenalectomy, corticosteroids, decompression intensity, and time of day. B. A. Rattner and S. P. Gruenau 155

Alterations in seizure mechanisms caused by oxygen high pressure, 1,1-dimethylhydrazine, and pyridoxine. B. E. Segerbo 167
Diffusion and nucleation of gas in gel and some implications for the development of decompression procedures. G. H. LeMessurier, T. N. Smith, and W. R. Wood 175
High pressure neurological syndrome: antagonistic effects of helium pressure and inhalation anesthetics on the dopamine-sensitive cyclic AMP response. E. Fish, R. Shankaran, and J. C. Hsia 189
Ultrasonic imaging system for the study of decompression-induced gas bubbles. S. Daniels, W. D. M. Paton, and E. B. Smith 197
Management of a complex diving accident. J. N. Norman, C. M. Childs, C. Jones, J. A. R. Smith, J. Ross, G. Riddle, A. MacIntosh, N. I. P. McKie, I. I. MacCauley, and X. Fructus 209

No. 3, September 1979

Single-tissue modeling of decompression schedules. A. Baz and A. Seireg 217
Use of oxygen for optimizing decompression. T. E. Berghage and T. M. McCracken 231
Rate of pressure change and hyperbaric bradycardia in the mouse sinus node. H. Ch. Örnhagen 241
Diffusion-dependence of pulmonary gas mixing at 5.5 and 9.5 ATA. H. D. Van Liew, E. D. Thalmann, and D. K. Sponholtz 251
Effects of immersion and static lung loading on submerged exercise at depth. E. D. Thalmann, D. K. Sponholtz, and C. E. G. Lundgren 259
Urinary excretion of water and electrolytes during open-sea saturation diving to 850 fsw. T. S. Neuman, R. F. Goad, D. Hall, R. M. Smith, J. R. Claybaugh, and S. K. Hong 291
Human parotid gland alpha-amylase secretion as a function of chronic hyperbaric exposure. S. C. Gilman, G. J. Fischer, R. J. Biersner, R. D. Thornton, and D. A. Miller 303

Book Review

Decompression sickness: the biophysical basis of prevention and treatment. B. A. Hills.
Reviewed by E. E. P. Barnard 309

No. 4, December 1979

Absence of antiarrhythmic effects of helium in patients with spontaneous premature ventricular beats at rest. C. E. Wade, E. W. Banister, D. G. Baker, and Y. C. Lin 313
Increased blood-brain barrier permeability to tetracycline in rabbits under dysbaric conditions. C. Chryssanthou, B. Graber, S. Mendelson, and G. Goldstein 319
Ketamine and thiopental sleep responses in guinea pigs in hyperbaric helium-oxygen. L. E. McCracken, H. F. Nicodemus, R. E. Tobey, and R. C. Bailey 329

Influence of increased gas density and external resistance on maximum expiratory flow. J. Vorosmarti, Jr. 339
Prolonged oxygen exposures in immersed exercising divers at 25 fsw (1.76 ATA). C. A. Piantadosi, R. L. Clinton, and E. D. Thalmann 347
The square-root principle in the calculation of one-stage (no-stop) decompression tables. A. R. Behnke 357
Effect of helium/nitrogen/oxygen mixtures on HPNS convulsion threshold in euthermic rats. J. A. Cromer, P. B. Bennett, W. L. Hunter, Jr., and D. Zinn 367
Equivalent air depth: fact or fiction. T. E. Berghage and T. M. McCracken 379

Book Reviews

An introduction to marine science. P. S. Meadows and J. I. Campbell. Reviewed by Robert R. Given 385
The living world of the reef. Hillary Houser and Bob Evans. Reviewed by Barbara J. MacLeod 386
